DETAILED ACTION

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless -

- (b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.
- 2. Claims 1-8 and 13 are rejected under 35 U.S.C. 102(b) as being anticipated by Stich et al. US #5,760,381.
- 3. Stich et al. disclose a greeting card including front and rear panels having indicia thereon and connected by a hinge (Figure 4) and gift card portion 11 attached to one of the greeting card panels by adhesive 30. The gift card is concealed (Figure 1). The gift card includes scanable information on magnetic strip 19. In Figure 12 (among others) the graphics/indicia will be under the gift card when the panels are folded.

Claim Rejections - 35 USC § 103

- 4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:
 - (a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negatived by the manner in which the invention was made.
- 5. Claims 9-11 are rejected under 35 U.S.C. 103(a) as being unpatentable over Stich et al.
- 6. Stich does not teach using a bar code, a transponder, or a transmitter, however, these are considered to be well known alternative equivalents to the magnetic strip. It

Application/Control Number: 10/076,198

Art Unit: 3611

would have been obvious to a person having ordinary skill in the art to utilize one of these alternatives as an obvious matter of design choice and to accommodate the particular needs of the retail establishment where the gift card is to be used.

- 7. Claim 12 is rejected under 35 U.S.C. 103(a) as being unpatentable over Stich et al. in view of Smith et al. US #5,777,305.
- 8. Stich et al. do not teach a window in the panel, however, this is well known, as shown by Smith et al. Smith et al. teach card panels holding a gift card and window 5 through which bar code 7 shows. It would have been obvious to one of ordinary skill to utilize such a window in the card of Stich et al. so that the card may be activated more easily.

Conclusion

9. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. US patents 4200222 and 4024656 are cited as of interest.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Joanne Silbermann whose telephone number is 703-308-2091. The examiner can normally be reached on Tu-Th 5:30-2:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Lesley Morris can be reached on 703-308-0629. The fax phone numbers for the organization where this application or proceeding is assigned are 703-872-9326 for regular communications and 703-872-9327 for After Final communications.

Application/Control Number: 10/076,198

Art Unit: 3611

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-308-1113.
